RONALD REAGAN, Governor

State Budget of California

SUPPLEMENT FOR SALARIES AND WAGES 1970-71

Submitted by

RONALD REAGAN

Governor

to the

CALIFORNIA LEGISLATURE

1970 Regular Session

Salaries and Wages

INTRODUCTION

Presented in this supplement to the budget document proper are the complete and detailed data on approved staffing for all state agencies. This information has been published in a separate volume to (1) reduce the quantity of detail in the budget document and thereby focus attention on the programs and activities of the several state agencies; (2) simplify the mechanics of budget preparation and printing; and (3) consolidate information on number and classification of positions, pay rates, and salary and wage expenditures.

For each state agency the information is reported for the 1968–69 fiscal year on an actual basis and for 1969–70 and 1970–71 on an authorized basis. A more thorough explanation of the content and interpretation of this supplement is given below and on the immediately following pages.

Position Titles

In this volume, positions encompassed by state civil service have been listed by the official class titles as established by the Personnel Board effective July 1, 1969. Positions exempt from civil service have been listed by the official class titles established by (1) statute, (2) The Regents of the University of California, (3) The Trustees of the California State Colleges, or (4) such other authority as may have been designated by law.

Authorized Positions

For the 1969–70 and 1970–71 fiscal years, positions reported as *authorized* are those which were included in the 1969–70 Budget as approved by the Legislature. Exceptions to this rule are explained by footnote in all cases other than technical adjustments of position classification to more accurately reflect assigned duties.

In some instances, certain classes have been combined to provide replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporary downward classification for recruiting purposes. Such positions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. For example: administrative trainee-junior staff analyst, $644–821.

Changes in Authorized Positions

Proposed Changes to Authorized Positions are now included in this supplement. These changes are proposed by the Executive and are listed under either: (1) Workload and Administrative Adjustments, (2) Proposed New Positions, and/or (3) Reductions in Authorized Positions.

Modifications to these changes as a result of legislative review will be reflected in the Final Change Book.

Expenditures

Estimated salary payments for each group of like positions are reported for the 1969–70 and 1970–71 fiscal years. These estimates represent salary costs on the basis of continuous, 100 percent occupancy of all authorized positions and include the cost of merit salary adjustments where applicable. Exceptions are explained by footnote for those special cases in which the above general rule was not followed. Appropriate adjustments to recognize probable position vacancies are included in the budget document as *estimated salary savings*. For the 1968–69 fiscal year *actual* salary expenditures are reported.

Number of Positions

For the 1968–69 fiscal year, the number of positions represents actual man-years (A man-year is equal to 12 months full-time employment of one person—12 persons employed for one month, two persons employed for six months, or any similar combination equal one man-year.) of employment expressed in terms of full-time, full-year equivalents counted to the nearest tenth of a man-year.

Positions for 1969–70 and 1970–71 are counted to the nearest tenth of authorized jobs expressed in terms of full-time, full-year equivalents. The only exception is in the case of positions to be established after July 1. In such instances, the positions are counted without adjustment for delayed establishment, e.g., a full-time position to be established January 1 is counted as 1.0 position, not as 0.5 position.

Salary Range

Rates of pay listed under this heading represent salary ranges established by (1) the State Personnel Board for civil service, Disaster Office interim merit system, and Maritime Academy classifications; (2) the appointing authority with the approval of the Director of Finance for Non-Civil Service positions; (3) statute; (4) The Regents of the University of California; (5) The Trustees of the California State Colleges; or (6) the Board of Directors of the Hastings College of the Law.

The amounts shown are the (1) minimum and maximum monthly or hourly rates, (2) flat monthly rate, or (3) annual compensation as indicated. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

In some classifications and positions with unusual conditions of work or where it is necessary to meet prevailing rates or practices, more than one salary range, or rate or method of compensation has been established within a class. These "alternate ranges" and the criteria for their application are established by the Personnel Board. For classes which have alternate ranges, salaries indicated in this supplement

show the minimum step of the lowest range and the maximum step of the highest range. The specific ranges and criteria for instructional positions, other than higher education, are shown on Pages 6 and 7.

Under the pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, $342–415 indicates a monthly salary range having steps of $342–$359–$377–$395–$415. Salary ranges for instructional positions and librarians in the state colleges, academic positions in the University of California and instructional positions in other state agencies are set forth on pages seven through eleven.

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code provides that each employee in the civil service receive a merit salary increase of one intermediate step in his salary range during each year in a position provided the employing agency certifies to the Personnel Board that the employee's job performance meets the level of quality and quantity expected by the agency considering the employee's experience in the position.

Special In-grade Salary Adjustments

The following classes falling within prescribed ranges are eligible for special in-grade salary adjustments, that is, from the first step to the second step of a salary range at the end of six or three monthly pay periods, unless excluded by a board resolution at the time the specific classification action was taken:

1. All classes with a maximum of $517 or lower.
2. Classes with a maximum of $522 to and including $764, or classes substantially equivalent to those with a maximum $764, if recruitment is from outside state service.
3. Classes with a maximum of $772 to and including $998, or classes substantially equivalent to those with a maximum $998, as designated by the Executive Officer, when recruitment is from outside state service and the state has experienced recruitment difficulties.

a. Classes with maximums higher than $998 are not eligible except as classes may be determined to be substantially equivalent to those with a maximum of $998.

Except for employees of the University of California, provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount included for salary adjustments has been offset by a lump sum deduction for downward adjustments included in the deduction for *estimated salary savings.*

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Merit salary adjustments for employees of the University of California and the State Colleges are determined in accordance with rules established by the regents and the trustees, respectively.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trade employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the state also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the state do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the state does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 11 holidays a year. Printing trades employees are provided the number of paid holidays received by their counterparts in private industry.

The salary ranges reported herein are those which had been approved by the appropriate salary fixing authority effective July 1, 1969. Salaries fixed by statute are those established in Government Code Sections 11550 to 11565 inclusive as revised effective November 10, 1969. Statutory salary provisions for judges and justices of courts of record are included in Government Code Sections 68200 to 68203.

Section 12, Article V of the Constitution prohibits a change in the salaries of the Governor, the Lieutenant Governor, the State Controller, Secretary of State, Superintendent of Public Instruction and the State Treasurer during their current term in office. In accordance with the provisions of the Constitution, changes in the salary of these elected officers become effective January 1, 1971, concurrent with the beginning of their new term of office.

ABBREVIATIONS USED IN SALARY SUPPLEMENT

In order to conserve printing space in the Salaries and Wages Supplement, a series of abbreviations are used.

NOTE—Abbreviations are not punctuated; i.e., there is no period (.) at the end. Multiple word abbreviations are not punctuated or have spaces between the letters; e.g., "electronic data processing" is "EDP" (not "E.D.P." or "E D P").

Salary Schedules for Instructional Positions—Other Than Higher Education as of July 1, 1969, Unless Otherwise Noted

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A	$753	$791	$830	$870	$915
B	791	830	870	915	959
C	830	870	915	959	1007
D	863	905	950	998	1048
E	905	950	998	1048	1100
F	950	998	1048	1100	1155

CRITERIA FOR RANGE DETERMINATION	ACADEMIC (Preparation)	VOCATIONAL (Preparation)
Range A	Provisional or special credential, without bachelor's degree.	
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.	
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credentials; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.	Three years experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary. junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular general secondary credential.	Qualification for special secondary Vocational Class A Credential in T and I and PS Education.
Ranges E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least 6 units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."	

Academic Salary Schedule—University of California

(Based on Salary Ranges Effective July 1, 1969)

[a] Section 12, Article V of the Constitution prohibits change in compensation of several constitutional officers during their term in office. Salary increase to $49,100 effective January 1971 concurrent with beginning of new term reflects increase authorized in Chapter 1599, Statutes of 1969.

[b] Section 12001 of the Government Code provides: "The Governor may appoint and fix the salaries of such secretaries and other personnel as he deems necessary for his office. No salary fixed under this section shall exceed twenty thousand dollars ($20,000) annually, except the salary of the Executive Secretary to the Governor shall not exceed thirty-five thousand dollars ($35,000) annually, and the salaries of eight secretaries to the Governor, including not more than two legislative secretaries, shall not exceed twenty-seven thousand five hundred dollars ($27,500) annually."

59–86

[a] Section 12, Article V of the Constitution prohibits change in compensation of several constitutional officers during their term in office. Salary increases to $35,000 effective January 1971 concurrent with beginning of new term to reflect increase authorized in Chapter 1599, Statutes of 1969.

[b] New organizational units established to reflect actual functional relationships. All positions in Corporate Filing and Elections were transferred from Administration.

[c] Transferred from Administration.

[a] Section 22, Article V of the Constitution prohibits change in compensation of several constitutional officers during their term in office. Salary increases to $35,000 effective January 1971 concurrent with beginning of new term to reflect increase authorized in Chapter 1599, Statutes of 1969.

[b] Two temporary help limited to June 30, 1970.

[c] This function was transferred to State Treasurer effective November 10, 1969. This is in accordance with Chapter 1396, Statutes of 1969.
